Pull-out Mirror

Your closet will look its best if everything is well organized and perfectly in its place. You look your best only after you see for yourself. In a perfect closet, a pull out full length mirror helps you achieve all of the above.

Crown Molding

Your walk-in closet should suit your needs for organization and efficiency. It should also suit your sense of style and the character of your home. Crown molding helps in making closet systems look more like fine closet furniture.

Locks

Keep busy bodies at bay with locks for doors and drawers. Though not a high security measure against skilled burglars, these chrome or brass fixtures are great deterrents for guests who can't resist the temptation to "just look."

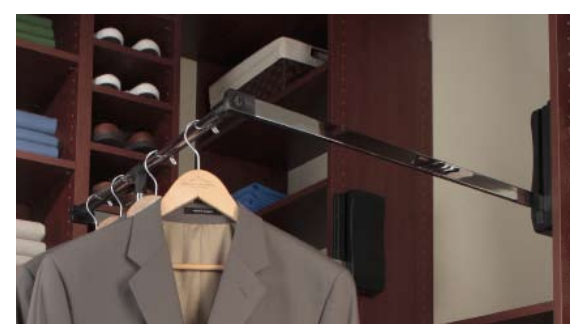

Puck Lights

The right lighting makes everything look better, not to mention more visible. Add drama to your storage furniture with a splash of halogen. The colors of your clothing and wood finish will loom richly under the beam of puck lighting.
